Mytho | la collezione

Mytho: l'ambiente avvolge e coinvolge: progettare significa condizionare continuamente i comportamenti dell'uomo.
È quindi, per chi progetta l'ufficio, importante conoscere e valutare i meccanismi psicologici che si innescano di fronte alle sollecitazioni dell'habitat in generale ed in special modo in quello del lavoro.

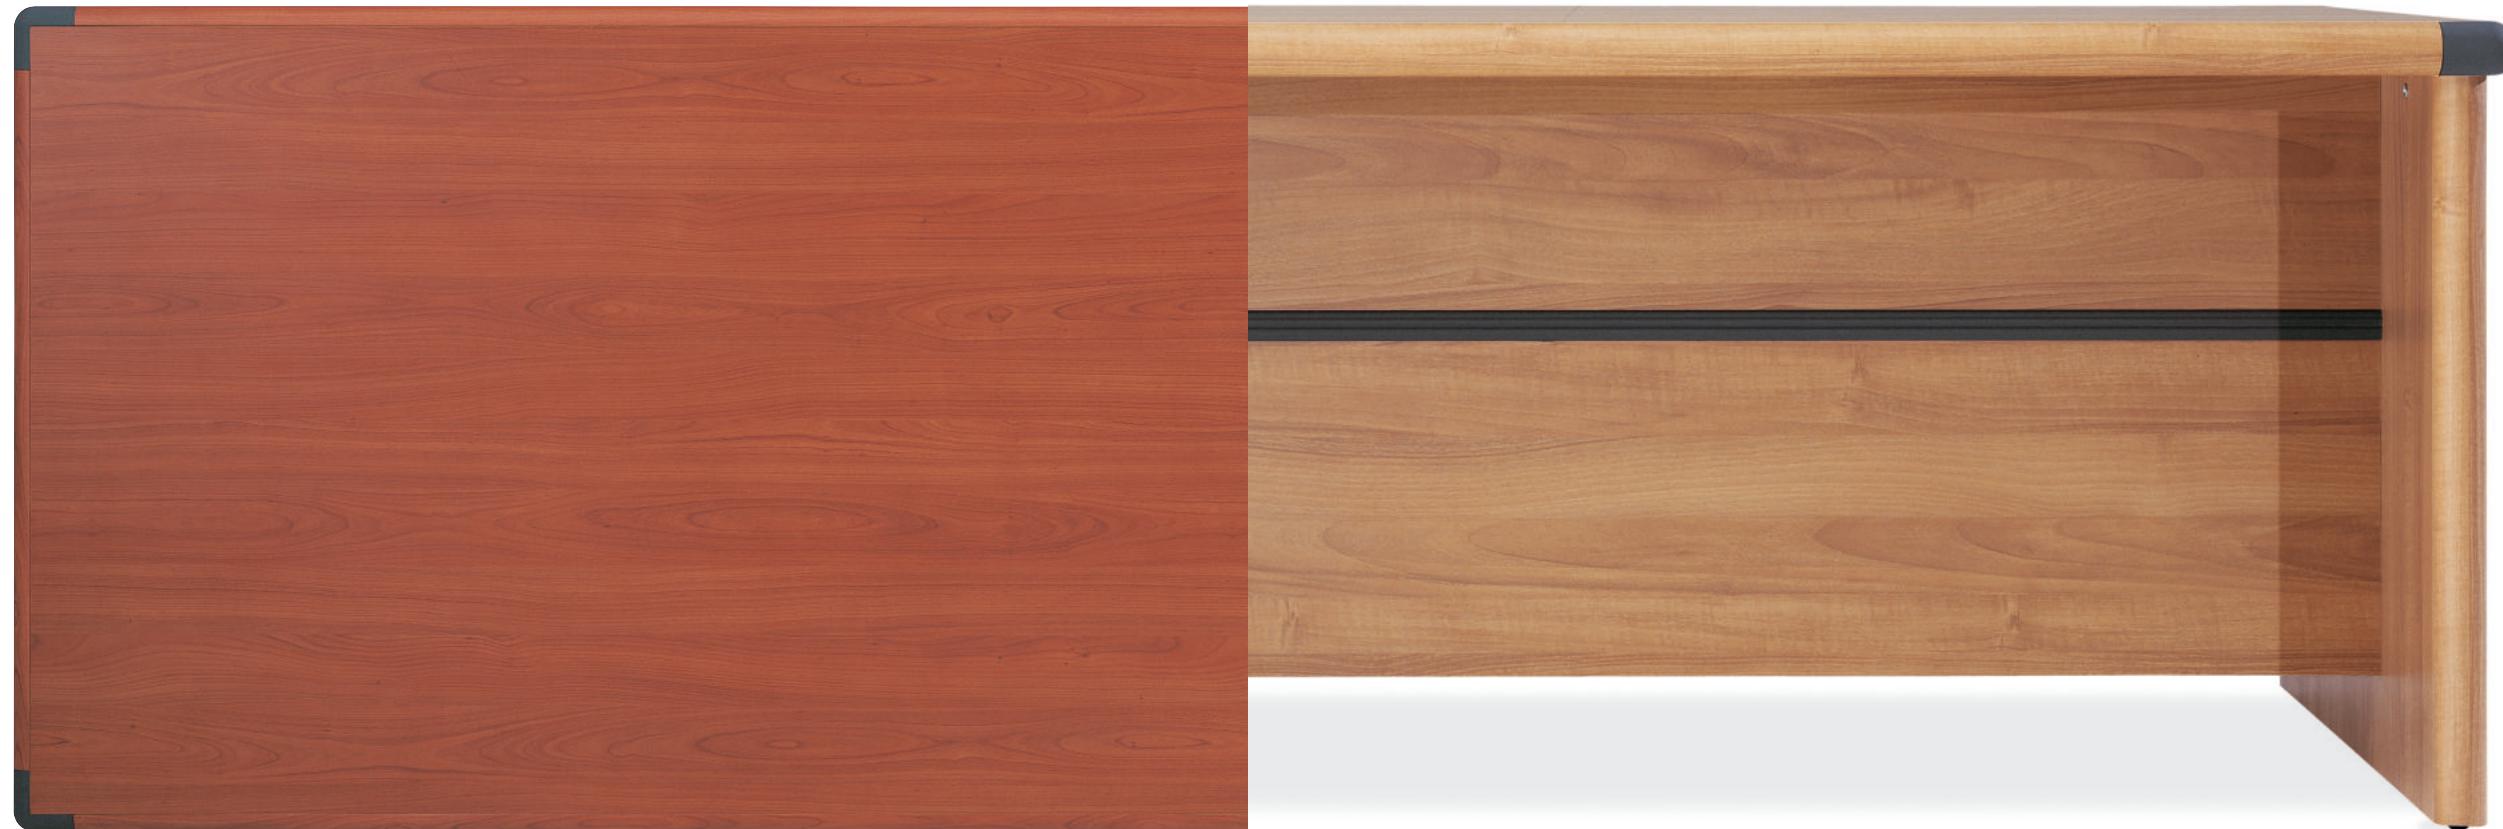

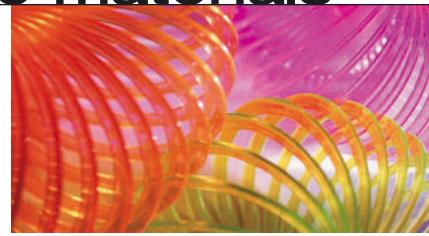

Mytho The collection

*Mytho: environment surrounds and entangles us: designing conditioning human behaviour.
Office designers have therefore to know and assess psychological reactions in the habitat around us above all the working one*
