Smile | la collezione

Per accrescere il comfort e la qualità dell'ufficio direttivo, abbiamo pensato una linea di arredamento elegante, funzionale, curata con precisione in ogni dettaglio.

Scoprire questa nuova realtà significa poter disporre di soluzioni appositamente pensate per la dimensione dell'ambiente professionale: in sintonia con qualunque specifica esigenza.

Smile The collection

To enhance the comfort and quality of a managerial office, we have designed an elegant, functional range of furniture whose every detail is meticulously crafted. This new range is purpose-designed for a professional environment and is in tune with any special requirements.

L'intensità avvolgente dei colori ciliegio ed acero, il freddo cromatismo del grigio chiaro: un contrasto che offre emozioni decise, all'insegna di uno stile sobrio e originale.

Wood materials

The intense colours of cherry and maple wood and the coolness of light grey contrast to create clear feelings, which are the hallmark of this sober, original style.

Calore e prestigio per l'ufficio contemporaneo - Warmth and prestige for a modern office

Ragione ed emozione si fondono in piena armonia - Practicality and feeling blend in perfect harmony

*Materiali pregiati, per una scelta che vale
First-class materials ensure the right choice*

Finitura in ciliegio - Cherry work finishes

Finitura in acero - Maple work finishes

*Bordi in ABS con finitura in ciliegio-platino
ABS edging with a cherry - platinum finish*

Basi in tonalità platino - Platinum bases

La Forma

Dall'intersezione sapiente tra linee diritte e curve sinuose nascono brillanti concezioni di design. Che creano nuove risposte all'esigenza di razionalità ed eleganza.

The style

A clever combination of straight lines and sinuous curves creates fresh design concepts.

A brand new way to meet your style and practicality requirements.

La struttura

La qualità è soprattutto una questione di particolari: come il piede regolabile in altezza, per un livellamento al piano sempre perfetto, o come la scelta di realizzare le strutture con pannelli a basso contenuto di formaldeide.

The frame

Details are always a clear sign of quality. One example is the adjustable foot which ensures you are always at the perfect working height, another is the frame which is made of panels with a low formaldehyde content.

L'ufficio

Accogliente, confortevole, rappresentativo:
così dev'essere l'ufficio, per offrire qualità
della vita a chi vi lavora e per comunicare
un senso di prestigio ai suoi ospiti.

The office

*Welcoming, comfortable and
representative: this is how an office
should be, so that it offers quality of life
to whoever works there and
makes an excellent
impression on guests.*

Versatilità | versatility

Meeting | I tavoli

La sala riunioni trova soluzioni ottimali, sia dal punto di vista estetico che funzionale. SMILE offre una risposta sempre perfetta, per arredare l'ufficio con classe e personalità.

Meetings **Tables**

A whole host of practical solutions with excellent aesthetics are available for meeting rooms. SMILE has everything you need to furnish an office with class and personality.

Ampia libertà di scelta tra moduli di dimensioni differenti, in modo da garantire in ogni contesto la disposizione ideale degli spazi. Perché l'efficienza è una dote irrinunciabile.

Organisation/**Drawers**

There is a wide range of different-size modules to choose from so as to ensure that your office space is managed as practically as possible. Efficiency is an essential feature of any office.

Con SMILE, gli elementi per archiviazione offrono uno stile in grado di fare arredamento. Da notare gli eleganti bordi in alluminio che profilano le ante in vetro, garantendo loro più bellezza e più protezione.

Filing/Shelving

SMILE offers filing equipment that is stylish enough to be furnishing. Particularly noteworthy is the elegant aluminium edging around the glass doors, which ensures both looks and safety.
